About me

PAULA URBANO

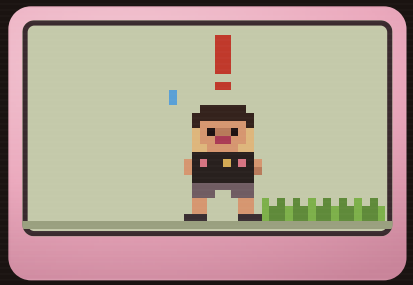

WEB DESIGNER & DEVELOPER

BASE	Valencia, Spain
STUDIES	Multimedia and Digital Arts · UCV · final year
REAL CLIENTS	Since 2025
LANGUAGES	Spanish and English
SKILL	I design in Figma and code it myself

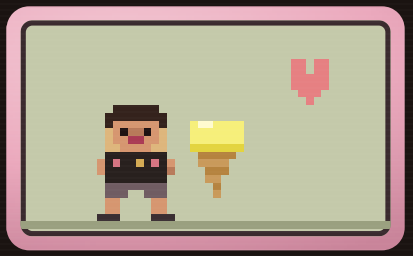

I COME FROM GRAPHIC DESIGN

I LEARNED TO CODE SO MY DESIGNS WOULD ACTUALLY WORK

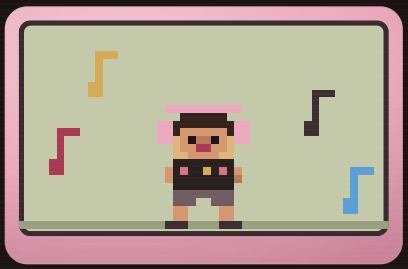

I wanted my designs to leave Figma and actually work. That's why I do both: I design the website and I build it, so what you see in the design is what goes live.

I can't walk on grass.

I always order the same thing: lemon ice cream.
I'm not one to try new things.

I listen to every kind of music.
My Spotify makes no sense.

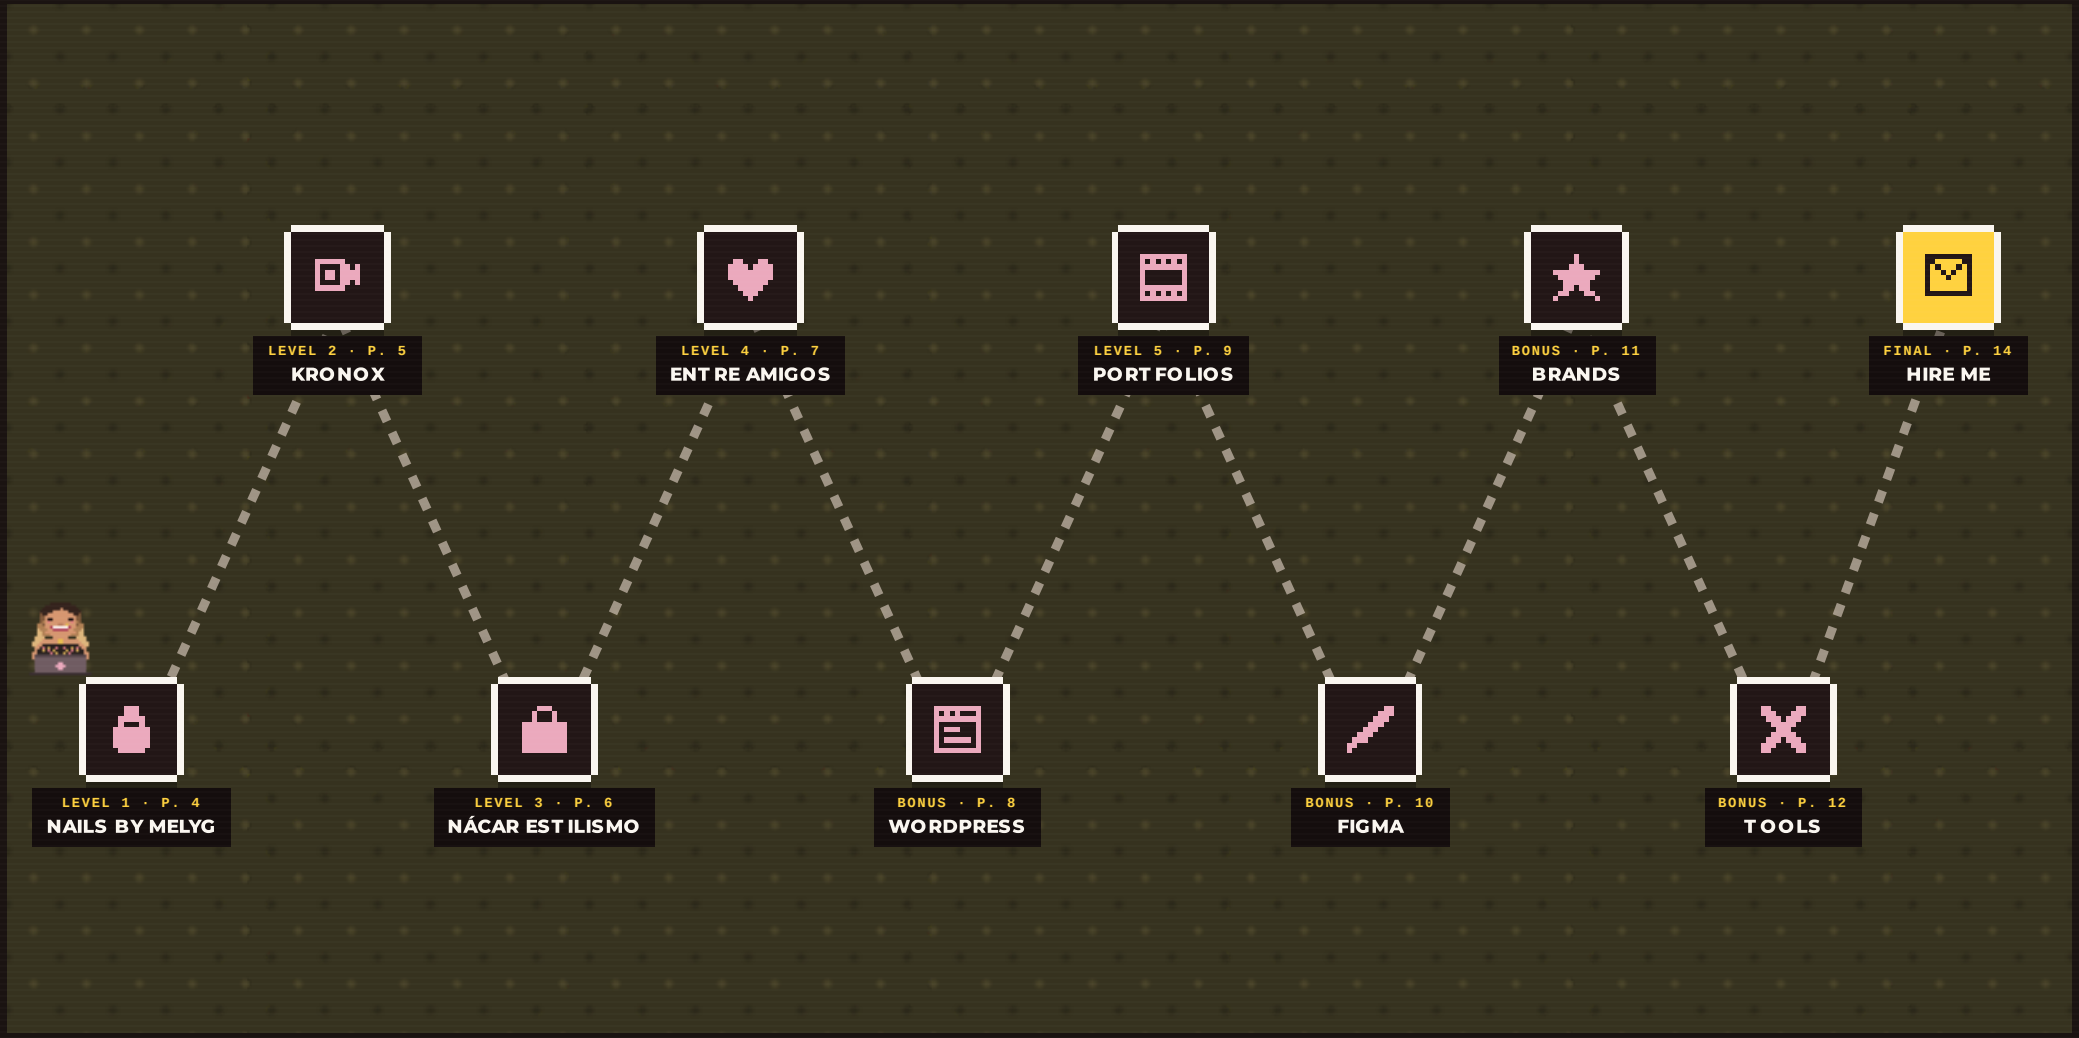

PAULAGOTCHI

Hi! I'm the Paulagotchi. Paula is in her final year of university and is looking for an internship starting in January, through a university agreement. Meanwhile, she already builds websites for real clients.

WHAT I DID	Figma design, UX/UI and development
MADE WITH	Figma · HTML · CSS · JavaScript · GSAP · Square
LANGUAGES	Spanish and English

WHAT I PLANNED

- **Try before booking.**
  A simulator to pick color, shape and finish.
- **In their language, without asking.**
  It opens in Spanish or English depending on the phone.
- **A gift in one minute.**
  The gift card is designed on the site and sent by WhatsApp.

★★★★★

«It exceeded all my expectations. A 10/10 job.»

Mission: open Mely's website and try the simulator like a client would. Mely runs a Russian manicure studio: I designed her website in Figma and built it so her clients can try on colors and shapes before booking.

WHAT I PLANNED

- **No misunderstandings.** Before messaging him, clients accept the shoot terms.
- **He changes everything.** Videos, prices and reviews from the panel, on his phone too.
- **Adding a video is pasting a link.** The YouTube title fills itself in.

WHAT I PLANNED

- **Keep browsing.** The bag slides in from the side, so nobody loses their page.
- **For everyone.** Six languages from day one.
- **Maintenance.** I still upload the new products.

I'm more than happy with how my website turned out! It exceeded all my expectations. It looks amazing: modern, elegant and really interactive, with motion and details that make it eye-catching and fun.

What I love most is how easy and practical it is for my clients to book their appointments and buy their gift cards. Everything is designed to give a comfortable, fast and professional experience.

I also want to highlight the responsibility, dedication and professionalism of the person who made this project happen. It was a real pleasure working with her, always attentive to every detail and committed to an amazing result.

I recommend her 100%! Without a doubt, a 10/10 job.

Thank you for giving Nails by MelyG such a beautiful, functional and modern website.

3D AND ANIMATION · HER PORTFOLIO

★★★★★

«She listened to my ideas, needs and wishes, and turned them into a portfolio that truly represents me. Communication was really easy: she showed me every step so I could review it, and hardly any changes were needed. I'd recommend her without a doubt.»

Working with Paula was an amazing experience. I loved the final result of my portfolio, not only for its technical and visual quality, but because I feel it truly represents who I am. Finding someone who can capture who you are and show it through your professional presentation is something very special, and Paula did it.

From the very beginning, she listened carefully to my ideas, suggestions, needs and wishes, and turned them into a creative proposal that fit me perfectly. Communication was easy and smooth throughout the whole process. I only had to send her the files and the initial brief, and she took care of the rest, bringing her creative vision and looking after every detail.

She kept me updated the whole time, sharing her progress and letting me review and approve each stage along the way. Thanks to that constant communication and her ability to understand what I wanted from the start, hardly any changes were needed.

All in all, it was a pleasure to work with Paula. I think she's an exceptional UI/UX designer, with real sensitivity for understanding people, a lot of creativity and the flexibility to adapt each project to the person behind it. I'd recommend her without hesitation to anyone looking for a professional, carefully made and, above all, authentic result.
