PROFILE

Web designer with a background in graphic design. I design and build custom websites from start to finish: UX/UI in Figma, responsive front-end in HTML, CSS and JavaScript, and Shopify and WordPress themes. Since 2025 I have worked with real clients and have four websites live. I also design brand identities, so the website and the brand speak the same language. I am looking to join a web design or development team.

EXPERIENCE

Freelance web designer
Client projects | Valencia, Spain (remote) | 2025 - Present

- Nails by MelyG (nailsbymelyg.com), nail studio in Katy, Texas: art direction, UX/UI and development of a bilingual website with an SVG manicure simulator, gallery, customizable gift cards and online booking.
- Nácar Estilismo, clothing store in Seville: Shopify theme built from scratch, multilingual store, maintenance and product uploads.
- Kronox, music video director in Seville: website with a booking system, terms accepted before contact, verified reviews and a custom admin panel to manage videos, photos and rates.
- Web portfolios for creatives: Jairo Azogue (video director and editor), ZogueKidd (film) and Catalina Silva (3D and animation), each one designed around what their industry looks for.

WEB PROJECTS
